Interchangeable left or right lock handle alignment supported

Low battery alerts and external USB power terminal for emergency back up when battery is discharged

TECHNICAL SPECIFICATIONS

SoHo Elock Pro

Parameter	Specifications
Door Thickness	35-110mm
Mortise	60/68mm mortise
Fingerprint Sensor Type	Semiconductor biometric sensor
Resolution	500 DPI
Verification Time	≤ 0.5 sec
Wi-Fi	Supported
Power Supply	4 x 1.5V AA battery
Battery Backup	6-8 months
Static Power Consumption	≤ 150 mAh
Dynamic Power Consumption	≤ 45 mAh
Keypad	Touch Keypad
Lock Override	Mechanical key supported
Backup Unlocking	Emergency USB port
Finger Print Capacity	300 (9sets of administrators,291 users)
Password Capacity	300 (9sets of administrators,291 users)
Card Capacity	300 (9sets of administrators,291 users)
Working Temperature	-20°C ~ 30°C
Working Relative Humidity	20% ~ 93%
Material	Aluminum Alloy & tempered glass
Dimension	360L x 75W x 25H (mm)
Weight	800g (without battery)
